Total Conrmed COVID-19 Deaths

As of the latest update from the John Hopkins University Center for Systems Science and Engineering (CSSE) on January 14, 2022, the total number of confirmed COVID-19 deaths worldwide has surpassed 5 million. This milestone highlights the ongoing impact of the pandemic on global health and underscores the importance of continued efforts in vaccination, treatment, and public health measures. The data is updated daily, reflecting the evolving situation and the ongoing efforts to control the spread of COVID-19.
